

OZ BIOSCIENCES is an expert company in innovative molecular systems of transfection and transduction. Since 2003, we create, develop and commercialize laboratory reagents for the global scientific community and the pharmaceutical industry.

OUR STRENGTHS

- The innovation
- The performance
- The satisfaction of our customers
- An exceptional technical and commercial support

OUR MISSION

Our mission is to constantly create innovative technologies, through our research and development programs, to serve and assist the life science community and thus accelerate scientific discoveries.

OUR ENGAGEMENT

To accomplish this mission, we are committed to providing all our employees with the necessary means to allow the continuous improvement of our Quality Management System. We are also committed to meeting legal and regulatory requirements as well as the requirements of our customers.

This commitment is materialized by a voluntary ISO 9001 certifications process.

OUR PRIORITIES for the next 4 years

- 1) To continue to develop our R&D expertise
- 2) To increase the turnover and profitability of the company
- 3) To improve and ensure the quality of the products
- 4) To improve marketing and corporate image
- 5) To continue the development of our company
